PROFILE

With training in architecture and a passion for visual storytelling, I bring a multidisciplinary approach to front-end development. Combining expertise in cross-functional collaboration, user-centered design and 3D design thinking, I build immersive, accessible, and intuitive web experiences that align with business goals and exceed user expectations.

WORK EXPERIENCE

Front-End Development | Independent Study

2023–Present

- Completed hands-on learning in modern web technologies including JavaScript, React, Three.js, and React Three Fiber.
- Built browser-based 3D experiences using React and Three.js, integrating real-time rendering, user interaction, and performance optimization.

Architect & 3D Designer

SmithGroup | Washington, District of Columbia

2015–Present

- Manages system coordination on large-scale projects involving multi-disciplinary teams of engineers and designers to ensure seamless execution.
- Designs innovative and visually compelling concepts for the built environment, while considering human-centered design best practices.
- Leads the 3D production process by mentoring peers and implementing the latest trends and innovations in AR, VR, MR, real-time rendering and 3D animation.
- Instrumental in winning over \$900M in new projects by developing strategic design concepts in FY2024.

Visualization Specialist

Miles Associates | Oklahoma City, Oklahoma

2012–2015

- Led 3D visualization efforts by creating compelling digital imagery and identifying software and workflow needs.
