PROFILE

Architect-trained 3D designer specializing in immersive environments and interactive storytelling. With over a decade delivering complex, large-scale architectural projects, I combine technical precision with creative technology to develop concept-to-execution solutions that communicate brand stories, support fabrication, and bring ideas to life. I excel at leading multidisciplinary teams, shaping creative concepts, and strengthening client relationships through strong visual narratives and compelling execution.

WORK EXPERIENCE

Immersive 3D Technologies & Spatial Computing | Independent Study 2023–Present

- Designed and developed ArchVue3D, an interactive browser-based 3D platform blending spatial design, storytelling, and real-time technology through React and Three.js, with ongoing exploration into WebXR integration for immersive, spatial interaction.
- Experimented with custom shaders, lightmaps, and UI systems—integrating AI-assisted 3D workflows to craft playful visual experiences and accelerate concept iteration.

Architect

SmithGroup | Washington, District of Columbia 2015–Present

- Spearheaded immersive visualization strategy for high-profile architecture projects, transforming conceptual designs into interactive AR, VR, MR and real-time experiences.
- Designed innovative and visually compelling concepts for the built environment while driving project documentation and client-facing design presentations.
- Managed system coordination on large-scale projects involving multi-disciplinary teams of engineers, designers, and consultants to ensure seamless execution.
- Generated over \$900M in new projects by developing strategic design concepts in FY2024.

Architect

Miles Associates | Oklahoma City, Oklahoma 2012-2015

- Led 3D visualization efforts by translating design concepts into photoreal product visuals and animations, along with identifying software and workflow improvements.

SKILLS

Design | Storytelling, Design Systems, Design Documentation, Technical Coordination, Accessibility, Physical Prototyping, Creative Coding, Parametric Modeling, Product Rendering, Real-time Rendering.

Tools | Autodesk 3ds Max, Chaos V-Ray, Blender, SketchUp, Lumion, Revit, AutoCAD, Adobe Creative Suite, JavaScript, React, Three.js, WebGL, React Three Fiber

AWARDS & LEADERSHIP

Guest Speaker, Howard University 2024

Guest Speaker, George Washington University 2020

Panel Moderator, Summer Leadership Summit 2019

EDUCATION

Bachelor of Architecture, University of Oklahoma 2012

Bachelor of Architecture, École Nationale Supérieure d'Architecture , France 2010
